A Meme with a Massive Community

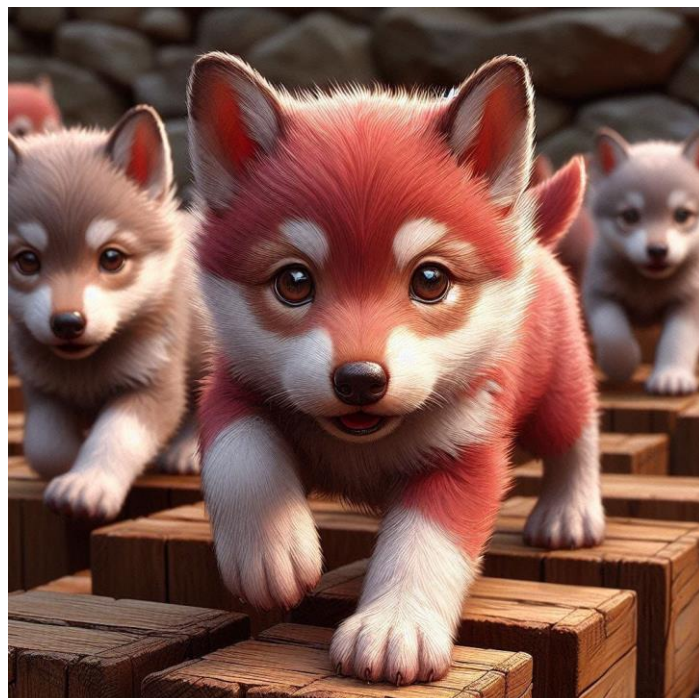

The power of a meme lies in its ability to unite people, spark conversations, and foster a sense of belonging. BabyWolvesInu, born from the meme culture, embodies these attributes and more, creating a vibrant community that plays a critical role in its ecosystem. This section of our white paper highlights the importance of BabyWolvesInu's meme roots and its massive community.

The Meme Phenomenon

BabyWolvesInu was created as a joke, following in the footsteps of the immensely popular Doge meme. Characterized by the fun, playful and adorable image of wolf cubs, the spirit of the Doge meme was perfectly encapsulated in BabyWolvesInu and became an instant hit with the meme-loving crowd.

The Power of Community

BabyWolvesInu's meme origins and its massive, vibrant community are at the heart of its success. They not only contribute to the token's popularity and reach but also play an essential role in its operations and ecosystem. The synergy of meme and community forms a vital part of the BabyWolvesInu experience, proving that when fun meets function, great things can happen.

Blockchain

As a marketplace with dematerialized products, proof of all activity must be provided. In the absence of proof, it would be possible to omit a transaction, fake a transaction, or change any fee. By building on a blockchain, the transactional database is completely transparent, immutable, and secure for all who participate. Everyone, including platform users and the public will see each transaction on the blockchain. The platform will be unable to hide, modify, or fake any information.

Binance Smart Chain

Binance Smart Chain (BSC) was developed as a means of utilizing solidity based smart contracts with much greater speed and efficiency than other, competing chains. With decentralized exchanges on BSC offering lightning-fast swaps and extremely low fees, BSC has started to become one of the most widely used blockchains for Decentralized Finance (Defi). BSC uses a token protocol developed by the Binance Team called BEP-20. Known for 5 second block speeds much faster than Doge with 1 minute block speeds.

Advantages of the Binance Smart Chain

It's a proprietary blockchain, which will provide security and safety to all users and developers. Its native dual chain interoperability will allow cross-chain communication and scaling of high-performance dApps that require a fast and smooth user experience. It's EVM-compatible and will support all of the existing Ethereum toolings along with faster and cheaper transactions. Its on-chain governance with Proof of Staked Authority consensus, built on 21 validators who validate the transactions, will provide decentralization and enable significant community involvement.
